

Equipment & attached-tool record

Keep the machine and the gun, torch, or feeder identities together.

Record date / recorded by / shop location

Power source: manufacturer / exact model / serial number

Attached gun or torch: manufacturer / exact model / markings

Separate feeder, spool gun, or accessory: model / serial number

Manual title / document number / revision / page reference

Part description	Part number / marking	Source / confirmed by

Photo filenames / unresolved questions / next action

Record only markings and information you can verify. Leave uncertain fields blank.
An equipment record is not a fitment approval or inspection certificate.
Follow the manufacturer's instructions before examining equipment; do not open energized units.
